

# CORN IS NOW PRICE LEADER

GOES AHEAD OF WHEAT FOR SECOND TIME IN LAST 25 YEARS

Normally corn for export has gone into storage as a quota on the market and the grain market has let a little room for corn that for which the record acre is a long time.

On, the before 1931 there was a time of conditions existed federal marketing in 1930 in the office of Marion C. L. by James A. E. L. A. L. show.

The other in fact, there was a condition existing in 1930 when the price of wheat was 48 cents and that for corn 4 cents.

The price of wheat has been held to date for six weeks although a regular difference has existed for only two weeks.

Differences of two to six cents have been held for the past two weeks in favor of corn or the lead market. A corn margin to corn was 15 cents in Marion to 12 cents in 1931.

Current Quotations

Corn here was quoted at 74 cents yesterday while 2 cents were brought 2 cents in Marion. On July 1 corn was quoted at 74 cents. One week ago a 4 cent range was recorded where wheat bringing 77 cents and corn 73. On July 1 both wheat and corn were quoted at 77 cents.

First instance this spring of a price exceeding that of wheat was reported in local grain market on May 27.

Unless the relative values change in a short time farmers will probably start feeding wheat instead of corn it was reported in Morrow county. The unusual reversal is not expected to continue for long grain dealers said.

Difficult to Analyze

The exact cause of the shift in value is difficult to determine. County Farm Agent B. L. Anderson said. While corn prices are governed largely by domestic supply and domestic conditions, wheat prices are regulated by world supply and world demand, he pointed out.

Drought conditions and demand are believed to have boosted the price of corn upward while a world surplus of wheat kept wheat prices low. The prices of both grains are unusually low this spring and summer he pointed out.

The similar condition in 1931 was attributed to corn price increases caused by the drought of 1930 and the world surplus of wheat in 1930 and 1931. Wheat prices turned in 1931 after the start of the harvest season he recalled. In recent years the margin between wheat prices and corn quotations has decreased. Farmers know the greatest margin in favor of wheat over a 25 year period was found in 1930 when wheat was 66 cents higher than corn.

**LARGEST CORN CROP IN YEARS FORECAST**

By The Associated Press COLUMBUS, O. July 20.—The largest Ohio corn crop in recent years is indicated by present conditions. Paul H. Hanefeld, state director of agriculture said today.

The director reported that the area planted in corn in 1930 was 1,100,000 acres and that unless some unforeseen difficulty arises the yield will be 36 bushels per acre, or a total of 32,000,000 bushels. Last year the acreage was 2,027,000 and that harvested 20,000,000 bushels.

**POPE RAPS HITLER'S RELIGIOUS DECREES**

(Continued from Page One) propaganda against it similar to the sort that preceded World War I.

No friendship existed, however, between the two former allies who had joined forces only to overthrow the republic. A year ago Ernst von Paderborn, then vice chancellor, took a strong hand in repelling the rift between the two warring factions which was one of the forewarnings of the future peace.

Similarly today the steel helmets were fully justified in recurring references to them as reactionaries.

The suppression of the section of the organization, consisting of members in Austria and Russia and the area of steel helmet leaders in Thuringia increased the tension.

Franz Seidler, leader and founder of the steel helmets and minister of labor in Hitler's cabinet, expressed considerable annoyance at not having been informed inmediately by the authorities of the secret police action disrupting his division. He learned it at first in the newspapers.

**ANNOYED NOT LEARNED**

Neither the number of steel helmets affected nor the amount of property affected could be learned.

Apprehension is held, however, by the absence of Hitler whose whereabouts are unknown. It could not be learned who he planned to replace his follower's once more or to pursue the radical course which would be an attempt to be at Hitler's disposal.

Heinrich Wilhelm Goering, minister of war in Hitler's cabinet is an honorary member of the steel helmets.

The three international organizations of steel helmets—Austria, Germany and Italy—also the brass band of parades. The secret police directed the groups because of certain elements in the steel helmets.

The subversive tendencies are understood to be the poking of fun at prominent persons.

## NYE WARNS AGAINST GUN SALES FOR WAR

Also Watches Bankers To See Whether They Finance Italy or Ethiopia

By The Associated Press NEW YORK, July 20.—Rep. George E. Nye, D., of Virginia, and Mrs. Clara H. Nye, wife of the Rep. said today that there was no reason to expect that the U. S. would not be a friend and the friend of the American people.

The Rep. said, "I do not believe that the American people are any more interested in the war in Ethiopia than they are in the war in Italy."

There was a loud roar today by Rep. George E. Nye, D., of New York, who expressed a fear that the American people would be drawn into the war in Ethiopia.

Rep. George E. Nye, D., of New York, who was president of the American People's Committee on War, said, "The

people of Pennsylvania, as far as I can see, are not American bankers are worried in the interests of either the quar-

ter or the war in Ethiopia. The war in Ethiopia is a complex and intricate one, and the people of the United States are not interested in it.

So far we have not found any American bankers are worried in the interests of either the quar-

ter or the war in Ethiopia. The war in Ethiopia is a complex and intricate one, and the people of the United States are not interested in it.

All we can do under present conditions is to keep the American people informed and advise public opinion against such activities.

Asked for his opinion of the Italian situation Nye said, "I am afraid if it looks like a situation that will lead to a disastrous confrontation I am fully afraid we will see full-scale war all over again."

## ROOSEVELT PRESSES FOR TAX SUIT BAN

(Continued from Page One)

about the pending bill to ban litigation against the government as a matter of dollar valuation.

The Senate compromise made a major change in the AAA amendment the administration is backing. The original AAA proposal would have barred suits until litigants who could prove they have the taxes themselves and by those who passed them on. The altered measure now merely prohibits suits by the latter class.

This was an indication to some observers of what the Senate will do, may be on the gold clause question. The supreme court already has indicated that the door to suits in the gold securities cases was closed to those who could not show damages.

There are indications that the Senate banking committee is most evenly divided on the President's recommendation for legislation to ban the gold clause suits. Republican members together with powerful Democratic leaders of the Senate, Glass (Democrat of Virginia) and McLean (Democrat of California), former treasury secretary bitterly opposed the legislation describing it as repudiation.

Not Encouraged

Leaders of the administration while still hopeful were not encouraged by the Senate vote on the proposed taxes.

The tax compromise was denounced by Sen. Bankhead, Dem. of Alabama, as leaving the treasury open to raids. He estimated \$1,000,000,000 might be involved.

Similarly, Senator Robinson, Dem. of C. O. Sherrill, who under took the survey at Davey's request estimated that Ohio could save \$300,000,000 yearly if recommendations of his committee were carried out.

Establishment of state business practices on a basis comparable to private industry, the government action is impractical because of the political aspects of state functions.

On Davey's pointed out quickly, however, that recommendations made by the Sherrill committee of business experts loaded full private industry would be given full consideration.

It is a glorious day for the law in predicting that there would be hundreds of thousands of suits.

But Sen. George, Democrat of Ohio, protested that to say the taxpayer hasn't the right to a day in court is an American and I represent a Democratic administration has ever proposed it. He introduced the compromise proposal.

CHURCH CLASS PLANS  
FOR SON PICNICYour Health  
BY DR. E. S. COPELAND

## Arthritis.

Painful and enlarged joints are symptoms of what is indeed a troublesome condition. This is called "arthritis." The word is derived from the Greek, "arthron," which means joint, and "itis" indicating inflammation. The disease has been known for centuries and even today is considered one of the chief among the outstanding human disorders.

In the state of Massachusetts a recent survey shows approximately 800,000 persons suffering from some type of chronic disturbance. Of this number, 135,000 more than 25 per cent, are victims of rheumatism or arthritis. It can be said without hesitation that the same proportion prevails all over the country.

Unfortunately, many sufferers from arthritis believe there is no cure for this distressing and disabling condition. This is not the case. When cases of arthritis are carefully supervised much relief and, in many instances, permanent cure may be obtained.

I am often asked by my readers what will relieve or cure arthritis. This is a question difficult to answer satisfactorily. The fact is there is no definite rule which can be applied in every case. Every such patient must be treated individually.

A prolonged period of complete rest is extremely beneficial. It is easy to say this, but, of course, complete rest is sometimes difficult to obtain. Whenever possible it should be the first step taken in the treatment.

For those who can afford the luxury, health resorts and sanatoriums

are recommended. There they have equipment important to return of health. In the more stubborn forms of the disease, special exercises, lamp treatments, massage and sunlight aid in restoring health.

It is important to get rid of all centers of infection. It is only within recent years that we have learned this. Now it is known that infected and diseased teeth, tonsils, nasal sinuses and other organs of the body are responsible for certain diseases, including arthritis. Every victim of this disorder should have his teeth, tonsils, gall bladder, kidneys, ears, nose and throat examined for any sign of infection. When the infection is removed, immediate relief is likely to be obtained.

Occasionally it may be necessary to have a special vaccine made. But this can only be determined by the attending doctor. He will tell you about it.

Attention to the diet is a matter of importance in the treatment of arthritis. Foods must be chosen that contain sufficient roughage to stimulate elimination.

Avoid all fried and greasy foods, an excess of salt, pepper and pickles and other condiments. Include potatoes, cereals, fresh fruits, vegetables and other foods in the diet because they help neutralize any tendency toward acidity.

Bear in mind that every case of arthritis carries its special problems. But with patience and proper care much can be done, particularly if treatment is given early.

Answers to Health Queries  
A. S. Q.—What is the cause of large pores and how can this condition be corrected? 2. Would a rundown condition affect the skin in this way?

A.—Proper care of the skin, as well as careful diet and regular habits should bring about general improvement. For full particulars send a self-addressed, stamped envelope and repeat your question. 2. The general health is apt to be a very important factor when looking for the cause of skin blemishes. For further particulars send a self-addressed, stamped envelope and repeat your questions.

F. M. Q.—What do you advise for kidney stones?

A.—Careful attention to the diet is very important under such circumstances. For further particulars send a self-addressed, stamped envelope and repeat your question.

H. K. A.—Q.—Will you please tell me the cause of continued and extreme bad taste in the mouth together with formation of a lumpy substance upon waking up?

A.—This probably is due to nasal catarrh. For full particulars repeat your question and send a stamped, self-addressed envelope.

LAW SAVES STATE  
\$500,000 A YEAR

By The Associated Press

COLUMBUS, O., July 20.—A recently enacted law depriving members of county and rural school boards of a \$3 a day fee for attending meetings will save the state and local subdivisions approximately \$500,000 a year, Dr. B. O. Skinner, state director of education, said yesterday.

The per diem provision was repealed in the school foundation bill.

IT'S a penny wise, pound foolish procedure to entrust the moving of valuable household goods to inexpert movers. We render the most modern and efficient service in moving, packing and storing.

Facts About The  
Ohio Financial Responsibility Act

(SENATE BILL No. 67)

"An Act To Promote Safe Driving and To Remove  
The Irresponsible Driver From The Highway"

This new law is to improve public safety and is aimed to end the reign of careless, irresponsible drivers. Under its provisions ONE ACCIDENT MAY BAR YOU AND ANY CAR OWNED BY YOU FROM THE HIGHWAYS BY SUSPENSION OF THE REGISTRATION CERTIFICATE UNLESS PROOF OF FINANCIAL RESPONSIBILITY — in one of the following ways is furnished:

- (A) By depositing \$11,000.00 in cash, municipal, state or government bonds or by filing a bond of a surety company or one signed by individual sureties.
- (B) By purchasing an automobile Bodily Injury Liability and Property Damage insurance policy.

The following states have this or similar laws:

Arizona  
California  
Colorado  
Connecticut  
Delaware  
Indiana  
Rhode Island  
South Dakota  
West Virginia

Iowa  
Maine  
Maryland  
Michigan  
Minnesota  
Nebraska  
Pennsylvania  
Vermont  
Wisconsin

New Hampshire  
New Jersey  
New York  
North Carolina  
North Dakota  
Ohio  
Oregon  
Virginia

A large portion of Canada is subordinate to Financial Responsibility Laws.

THE MOST CONVENIENT, SENSIBLE AND ECONOMICAL WAY TO COMPLY WITH THIS NEW LAW IS TO PURCHASE AN AUTOMOBILE (BODILY INJURY) LIABILITY AND PROPERTY DAMAGE INSURANCE POLICY. THE FOLLOWING AGENTS CAN MEET THE DEMANDS OF THE "FINANCIAL RESPONSIBILITY" LAW FOR YOU!

## PROGRESS

It has always been our aim to furnish the best funeral services to be found anywhere. In keeping with this spirit we have air conditioned our funeral home.

Without additional charge we now offer our air conditioned Chapel, rest and reception rooms for services during the summer months.

We are one of the few funeral homes in the country offering this service. The air is cooled, dehumidified, purified and washed—with a complete change of air every few minutes.

In taking this modern step we assure the people of Marion that they continue to be one of the nations most thoughtful, dependable and reasonable funeral homes.

# REVIEWS ON ROUTE CHANGES AT HEARING

County traffic engineer said the state highway department has objected to the return signs motorists having complained that the signs caused them to lose their routes when they wished to make turns. He emphasized that the route changes proposed by the city, probably would take enough traffic away from the Main and Center street intersection to eliminate congestion and that council probably would repeat the no ordinance if the route change were made.

## Laws Cards on Table

I'm going to lay my card on the table, Mr. Mercer said. I feel that the result of these changes would be that the state highway department would launch projects to widen and re-align or repair Main Avenue, Church street from Main Avenue to High street, and Prospect street from the south city limits to George street. George street probably would be included in a widening project.

In emphasizing the congested parking and traffic problems on downtown streets, Mr. Mercer recalled a recent survey made by police to determine what time of night would be the most convenient for service department employees to clean streets in the downtown area. Police found that there was no hour of the night when the streets could be cleaned thoroughly because of the great number of automobiles parked all night, he said.

Objections have been raised to the proposed changes by some of the oil companies, the director said. The fact is the changes would be advantageous to the oil companies. The re-routing of the highway would bring more service stations on the through traffic line than are on them now.

## No Selfish Motive

In proposing these changes I am not trying to antagonize any group of merchants and I do not have a selfish motive, Mr. Mercer said. I feel that it is my duty as service director to do as much as I can for the city of Marion and I am trying to obtain as many first class streets as possible at a minimum expense to the city.

Marion is fast becoming a one street town, he declared. By putting other streets in the downtown area in good condition and running more traffic over them we can stop that trend, he said.

## Doubtful About Improvements

In commenting on the other principal purpose given by Mr. Mercer in proposing the changes, Mr. Kleinhauer said he felt that the agreement the business men have made in the parking problem would do much toward relieving the traffic congestion.

## Chief Mackan spoke briefly in outlining the traffic problems in the business section. There have been times, he said, when on emergency calls in a police car with the siren turned on he had to wait for several changes in traffic lights because he could not get around the line of traffic. As for the no right and left turn signs we haven't yet issued a traffic tag to a tourist for disobeying them although tags have been given and will continue to be given to local cars for violation of the order. He asserted it would be practically impossible for the fire department trucks to run at a rapid rate of speed on Main or Center streets on Saturday.

D. F. Mallon of 258 Silver street was the first speaker for the group objecting to the proposed changes. He contended that routing highway No. 4 on North Prospect street would present too great a hazard for pupils of the St. Mary Parochial school. It was later pointed out that about as many St. Mary pupils leave the rear of the school and go home by way of Main street as on Prospect street and that the changes would lighten the Main street traffic which also could be regarded at present as a hazard to the children.

George G. Kleinhauer in speaking for the business men's group many of whom signed the petition presented said the group fully appreciates that Director Mercer has suggested the changes with the best interests of Marion at heart and that the business men have already made a gesture to aid officials in solving the traffic problems by agreeing to keep their automobiles and the automobiles of their employees out of the business sections.

The general attitude of the busi-

## BIGGEST U. S. HOLDUP SOLVED

Police decide that the \$42,000 armored truck holdup in Brooklyn, N. Y., biggest robbery in U. S. history was solved with identification of Ed Gaffney (l) and John Hughes (r) arrested

in New Jersey going strong with half dozen others as the perpetrators. Other photos show the truck that was robbed and the telltale machine gun left behind.

Mr. Mercer again spoke briefly in outlining the traffic problems in the business section. There have been times, he said, when on emergency calls in a police car with the siren turned on he had to wait for several changes in traffic lights because he could not get around the line of traffic. As for the no right and left turn signs we haven't yet issued a traffic tag to a tourist for disobeying them although tags have been given and will continue to be given to local cars for violation of the order. He asserted it would be practically impossible for the fire department trucks to run at a rapid rate of speed on Main or Center streets on Saturday.

Mr. Turner refuted Mr. Kleinhauer's argument that the agreement will eliminate congested traffic. There will still be the heavy load of tourist traffic at the Main and Center streets in intersection he pointed out. Something will have to be done about that problem he added.

**Hotel Men Protest**

C. A. Klunk manager of the Marion hotel was the next speaker representing the Marion Hotel and Motel hotels.

When state route No. 30 was divided into north and south six lanes 90 per cent of the tourist traffic on that highway was lost to Marion. Mr. Klunk said very little of the old traffic comes over route No. 30 S. through here. The hotel men protest vigorously against routing the remaining tourist trade out of Marion, he said.

**Chris Turoff**

Chris Turoff proprietor of Turoff's restaurant spoke for the restaurant owners in the downtown area. We restaurant men are opposed to these changes perhaps more than any other group. Mr. Turoff said: Thirty-five per cent of our business is tourist trade and we will wage a continuous fight to retain this portion of our business.

In closing Mr. Turoff suggested that consideration be given to widening Columbia street between Prospect and Main streets instead of widening George street and routing No. 4 traffic off of Main street.

**Speaks for Oil Companies**

P. G. Tracy manager for the Standard Oil Co. spoke for the oil interests. He said his company is considering the erection of a new station at Main and Columbia streets and that the company with the cooperation of the prop. owner adjacent to the proposed new station will undertake the widening of Columbia street at the intersection of a proposed route No. 4 bridge as it now is. Zeb Scott spoke for the Danner Buck Co. a garage and service station in connection with the company and a used car garage and automobile repair shop to operate a 209 North Main street. Mr. Scott said: "For us to shop and the Danner company obtain 25 washing jobs and repair jobs a day in front tourist cars on the main highway is running out. Don't be afraid. If the traffic is diverted off of North Main street that will be a good thing."

John F. Smith manager of the Pilgrim hotel said he was asked to add his protest to Mr. Klunk's behalf of the hotel.

**Brown City Objections**

W. D. Brooks, an agent of the Chamber of Commerce and Mr. Turner, the manager of the city of Marion, are opposed to the proposed highway changes. The petition for a hearing on the proposed changes was signed by a great many of the business men and a great many changes have been proposed.

After the other speakers had com-

## SWIMMING TEST PASSED BY 35

Progress Made by Red Cross Class Enrolled at Crystal Lake

The 35 swimmers of Marion and vicinity know more today about the rudiments of swimming than they did a week ago before the Marion chapter of the Red Cross met with the Ohio Water Safety Association in the free lunch to swim competition at the lake.

Mrs. Ethel Hartman, in charge of Red Cross swimming and life saving, was known that 35 of the 100 swimmers who met last Monday at Crystal Lake park for their first exposure to swimming have successfully passed the Polliwog or first test.

To pass the test a person must be able to do 10 perfect strokes while being a complete movement of both arms.

Among those who are now ten strokes is Miss Ethel Black, executive secretary of the Marion chapter of Red Cross. The ten swimmers will receive buttons attesting to their successful passing of the test.

Mrs. Black expressed pleasure in the meeting with the success of the first to swim movement in Marion. To date there are approximately 75 children and adults who are learning to swim some of them now being classed as 10 swimmers. Those who have passed the first test and are swimmers tend to the county farm agent announced.

Heavy rain the last of July and early in July washed away all of the chin hags and the spirit of life of the army in the last ten days. While a few of them have lived through the trials they will not cause widespread damage if unless there is a big dry spell. Farmers need not be worried about an other invasion of Mr. Potters mill. A dry period will attract the bugs to get away from wheat and rye fields in which they have been confined in the corn crop where they usually obtain late summer as tenants. A combination of the rats will be a boon to the corn crop stamping out its insect enemies.

The span of life of army worms is three to four weeks. Mr. Potters explained when they eat their way into the earth and tunnel into the pupa stage in the life of an army worm it is in the pupa stage the worm emerges as an adult moth in a period of about two weeks. The months lay eggs and then form the foundation for the fall brood of army worms. The second invasion will be less noticeable damage. Mr. Potters said.

Mosquitoes breed which are at work in areas west of Marion county have not shown up in this district in alarming numbers. A few you can see. Infested with them but they have not been noticed generally.

The home of Rev. and Mrs. A. F. Clegg of Marion was the scene of the annual picnic of Unity High class of Wesley A. F. Sunday school Thursday. Mrs. Clegg is a former member of the class.

At 10 members and guests attended the picnic which was held at the residence of Mrs. E. Clegg, who was recently married.

The governor said he hoped to make the selection early next week.

Greater powers are given the director under the new school law.

The next class meeting will be held in one month.

# Announcing the REFRIGERATOR RECIPE CONTEST

Since the close of the Refrigerator Recipe Contest several weeks ago—the judges, Mrs. Dolly Deeds, Home Economics Supervisor, The Ohio Fuel Gas Company; Miss Ruth Kleinmaier, Home Economics Advisor, The C. D. & M. Electric Company and Miss Edna Dutton, society editor of The Star, have been reading, discussing, judging and eliminating the large number of recipes received. After the entries in each class of the contest were reduced to a small number, all recipes were tested, actually made according to directions. The final winners were determined from these tests—so in presenting the winners on this page, the contest sponsors are privileged to recommend the winning recipes to you for your own use.

The contest sponsors and The Star take this opportunity to congratulate the prize winners, thank all participants in the contest and to especially thank the judges, who have worked hard and long in the interest of fair and intelligent judging.

## Distribution of the \$25<sup>00</sup> Prize Money Is As Follows (Checks Were Placed in the Mail Today)

**\$4.00 Grand Prize for the  
MOST OUTSTANDING RECIPE  
ENTERED IN THE CONTEST**

Grand Prize  
**APRICOT SHERBET**  
**MRS. J. Y. APT**  
317 POWHATAN ST., MARION.  
SIMPLE—REFRESHING—INEXPENSIVE—EASILY MADE.

HERE IS THE RECIPE  
**APRICOT SHERBET**

$\frac{1}{2}$  can apricots and juice  
3-4 cup sugar  
3 egg whites  
Mash apricots through a strainer. Mix with the juice. Beat egg whites until very stiff, fold in sugar and apricots, pour into tray and freeze.

## Listed Below are the Winners of the \$3<sup>00</sup> First Prizes in Each of the Seven Classes

### Mousse

MRS. S. SNODGRASS  
818 S. Prospect St.

#### Chocolate Part

1 square unsweetened  
chocolate.  
1/2 cup powdered sugar.  
1/2 cup milk.  
35 teaspoon vanilla.  
1/2 pint cream.

#### Vanilla Part

1/2 cup cream.  
1/2 cup powdered sugar.  
1/2 teaspoon vanilla.  
1/2 teaspoon almond extract.  
Few grains salt.

Chocolate—Heat chocolate, sugar and milk over hot water until chocolate is melted. Chill. Add vanilla. Whip the cream and fold into chocolate mixture.

Vanilla—Beat cream slightly and fold in sugar, vanilla, almond and salt. Put spoonful of the vanilla and chocolate mixture into the ice tray of your refrigerator alternately, making a blocked or checker board effect. It can be frozen in this blocked design or if a marble effect is desired take a small bladed spatula and make a swirling motion down the center to give the mousse a mottled appearance. Then freeze and cut in slices to serve.

### Ice Cream

MRS. EARL S. BECK  
545 E. George St.

#### LEMON VELVET CREAM

One cup sugar, 2 tablespoons cornstarch, a pinch of salt, 1 cup boiling water, 2 egg yolks, 1 tablespoon butter, juice and grated rind of one large lemon, 2 egg whites beaten stiff, 1/2 pint heavy cream whipped.

Combine sugar, cornstarch and salt in double broiler top, add boiling water and stir over direct heat constantly until clear and thick. (Cooking time 10 minutes.)

Pour over beaten egg yolks, add butter, set over hot water, stir until mixture thickens well. (Cooking time 15 minutes.)

Remove from heat. Cool. Fold in juice and grated rind of lemon and stiffly beaten egg whites. When blended, fold in whipped cream. Pour in trays and freeze until solid, setting control for lowest temperature. (Freezing time 3 hours.)

Servings, eight.

### Parfaits

ESTELLE REED  
432 S. Prospect St.

#### STRAWBERRY AND FINE-APPLE PARFAIT

1 cup crushed pineapple.  
1 cup crushed strawberries.  
1 tablespoon lemon juice.  
1/2 pint whipping cream.  
2-3 cup of sugar.

Whip cream, add sugar gradually, then crushed fruit and lemon juice. Freeze without stirring five to six hours. Serves six to eight persons.

Red raspberries may be substituted.

### Glaces

MRS. THOMAS BAIN  
322 Sheridan Road

#### FRESH STRAWBERRY GLACE

3 cups sliced strawberries.  
1/2 cup sugar.  
1 pike, strawberry jello.  
1/2 cup warm water.  
1/2 cup ice water.  
1 baked 9-inch pie shell.

Mix strawberries and sugar, let stand 20 minutes. Thoroughly dissolve jello in warm water, add ice water. When partially congealed, add strawberry mixture. Pour this into pie shell and put in the refrigerator to set. When ready to serve, fold in sugar. Combine the two mixtures and blend lightly but thoroughly. Place in individual paper cups and freeze in refrigerator tray. Serves four or six.

### Ices

MRS. W. E. HOGAN  
691 Woodrow Ave.

#### BANANA ICE

2 small bananas or 1 large one.  
1 tablespoon lemon juice.  
1/2 cup sugar.  
1/2 cup orange juice.  
2 egg whites.

Mash bananas through coarse strainer, add lemon juice. Beat egg whites until stiff and fold in sugar. Combine the two mixtures and blend lightly but thoroughly. Place in individual paper cups and freeze in refrigerator tray. Serves four or six.

### Sherbets

MRS. C. F. CARROLL  
274 Marion Ave.

#### FRUIT SHERBET

1 teaspoon gelatine.  
1 cup shredded pineapple.  
1/2 cup sugar.  
1/2 cup orange juice.  
2 egg whites.

Mash pineapple through coarse strainer, add lemon juice. Beat egg whites until stiff and fold in sugar. Combine the two mixtures and blend lightly but thoroughly. Place in individual paper cups and freeze in refrigerator tray. Serves four or six.

### Sponges

MRS. GLEN O. TOMS  
266 S. State St.

#### DADE SUPREME SPONGE

1/2 cups milk.  
1 cup dates, pitted and sliced.  
3 tablespoons cornstarch.  
1/2 teaspoon salt.  
1/2 cup nut meats.  
1/2 cup cold milk.  
2 egg yolks.  
1/2 cup brown sugar.  
1/2 teaspoon vanilla.

Scald the milk in top of double broiler. Add dates. Mix cornstarch and salt with the milk or milk and stir this paste into the scalded milk. Continue to stir until the mixture has thickened. Beat the egg yolks slightly and add the brown sugar and stir into cornstarch mixture one minute before removing from the fire. Add the vanilla and nut meats. Freeze in refrigerator. To obtain a more fluffy texture, fold in stiffly beaten egg whites after mixture is partially frozen.
